Do you Recycle your Paper and Cardboard?

Recycling paper and cardboard makes a substantial contribution towards the environment as well as significant savings in your waste management budget

At current recycling rates, Australians are saving around 1.75 million tonnes of paper annually - conserving over 22 million trees.

It takes 13 trees to make one tonne of A4 paper.

Australians use over 3.5 million tonnes of paper every year, yet only 47% of this is collected for recycling.

Paper that does not get recycled goes to landfill where it rots down into methane, a harmful greenhouse gas.

Recycling your paper and cardboard can reduce your overall waste bill.

Offering you Additional Services

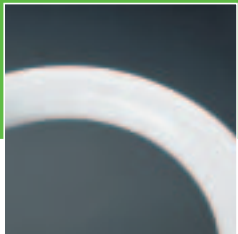

- Recycling (paper and cardboard, plastic, glass, timber, steel, fluorescent tubes etc.)
- Security Disposal
- Product Destruction
- Builders Bins
- Hygiene Services
- Skip Bins
- Liquid Waste
- Waste Assessments

New Fluoro Tube Recycling Service

SITA's fluorescent tube collection boxes can hold up to 100 tubes

SITA Environmental Solutions is introducing a collection and recycling service in Victoria for fluorescent light tubes.

Participating customers receive a 'Starter Pack' consisting of a cardboard box that holds up to 100 tubes.

Once the box is filled, customers contact SITA on 13 13 35 to arrange for collection and a replacement box.

The fluorescent tubes are recycled for their components using crushing and separation technology.

Components include mercury, aluminium, phosphor powder and glass. The end result is that hazardous fluoro tubes are transformed into clean, environmentally sound by-products.

For Fluoro Tube Recycling call 13 13 35

Supporting Landcare Australia

As a partner of Landcare Australia, SITA provides seedling protectors (below left) free of charge to Landcare tree planting

projects on public land. Please let us know if you have a project requiring assistance.

SUBWAY® has adopted an environmentally sustainable approach to its waste management

SUBWAY® has selected SITA as its preferred supplier of waste and recycling services to reduce waste to landfill and save money.

"Following an audit of its waste generation and disposal practices, SUBWAY® is now embracing a systematic approach aimed at maximising the amount of waste it diverts from landfill," said Mike Ritchie, General Manager Marketing, SITA.

In addition to the provision for general waste, restaurants can also recycle food waste, plastic, paper and cardboard.

Call 13 13 35 if your business needs to minimise waste.

SITA Trucks Help Sydney Charities

SITA was a proud supporter of the recent 'Convoy for Kids' at Sydney Olympic Park, a fundraiser for The Children's Hospital and Careflight.
