

Office Tower Waste Collection

Did you know that huge amounts of recyclables go to waste from office towers?

Nationally, only 11% of white office paper is recycled compared to 73% of newsprint and 50% of cardboard. So nine out of 10 sheets of white office paper still go to landfill!

SITA can offer services to maximise recycling.

Items collected include:

- Paper and Cardboard
- Fluorescent Tubes
- Batteries
- Secure Paper
- Food
- Plastic
- Timber
