

solutions for landscapers why choose SUEZ environnement?

SUEZ environnement* is one of the largest processors of **urban generated organics** in Australia. We produce **soil blends and compost products** for use in horticulture, agriculture, mining, civil works, commercial landscaping and sports turf management.

Our product range includes soil improvers, organic top dressing, turf underlay, garden soil mixes, potting products, composts and mulches.

We also offer customers specific blends and organic soil improvers tailored to your needs, as well as product delivery, soil testing and spreading services.

Whether your objective is large landscaping projects, robust lawns or high yield cropping, SUEZ environnement will work with you to provide products and services you can trust to generate results.

SUEZ environnement can provide you with

- Reliable service and high quality products
- Soil testing and soil amelioration
- Quote turnaround in 24 business hours
- Customised solutions – our Organics specialists will work with you to achieve optimal outcomes for your green spaces, plant life and landscapes

Our facilities in **Eastern Creek, Lucas Heights and Camden** service anywhere in Sydney and beyond. Contact us to discuss the most **cost effective** delivery option for your order.

*SUEZ environnement recycling and waste recovery (referred to as SUEZ environnement) [ABN 70 002 902 650] is the new business name of SITA Australia Pty Ltd. SITA Australia Pty Ltd is part of the SUEZ environnement global group of companies.
