THE LEADER IN RESOURCE RECOVERY

MEDIA ALERT

August 1, 2013

SITA SEEKS NEIGHBOURHOOD INVOLVEMENT

SITA Australia (SITA) is seeking people who live, work or have an interest in the Hampton Park Resource Recovery Precinct to join our community reference group.

Individuals or members of established community groups interested in participating in SITA's Hampton Park Community Reference Group (CRG) are being sought to help improve community awareness of SITA's operations and environmental performance.

CRG members will contribute to the discussion regarding current operations and future developments, as well as being integral in the dissemination of information back into the community.

"Working in a consultative forum with our neighbours has been very beneficial to both SITA and the larger community," said State General Manager, Daniel Fyfe.

We know that the CRG members have appreciated the opportunity to provide input on a wide range of resource recovery, sustainability and corporate citizenship topics and we believe the community has benefitted from the information we have provided."

The original Hampton Park CRG was formed in July 2011, offering membership to 11 community members for a period of two years. During this time the CRG has expanded to 13 members and has positively contributed to SITA through the distribution of information to the wider community and the provision of constructive feedback relevant to SITA's operations.

Mr Fyfe said, "The value of community engagement is recognised at every level of SITA and we consider our neighbours to be key partners."

"I encourage all community members to consider participation in the CRG. In fact, we welcome anyone who wishes to visit the Hampton Park facility and view our operations."

SITA is now seeking 18 people who will be responsible for representing the views of the community and help SITA make sure that information is communicated to the local community.

CRG members will be required to:

- contribute to an open, encouraging, motivating environment for discussion;
- present a responsive and active approach toward safety and environmental management of SITA's Hampton Park facility; and
- be willing to introduce or consider new and innovative ideas to assist SITA to develop and grow in a sustainable manner with due regard to the environment, the community and the economy.

SITA AUSTRALIA (SITA) is a SUEZ ENVIRONNEMENT and Sembcorp Industries joint venture, providing weekly services to over 56,000 commercial and industrial customers and more than 3.7 million residents across Australia. SITA's services include domestic, commercial & industrial waste collection; waste assessments; resource recovery and recycling options; processing of organic materials into compost; renewable energy facilities; hygiene services; waste treatment; and product destruction. More information on SITA's services can be obtained by calling 13 13 35 or visit www.sita.com.au

Natural resources are not infinite. Each day, **SUEZ ENVIRONNEMENT** (Paris: SEV, Brussels: SEVB) and its subsidiaries deal with the challenge of protecting resources by providing innovative solutions to industry and to millions of people. SUEZ ENVIRONNEMENT supplies drinking water to 91 million people, provides wastewater treatment services for 63 million people and collects the waste produced by 57 million people. SUEZ ENVIRONNEMENT has 79,550 employees and, with its presence on five continents, is a world leader exclusively dedicated to water and waste management services. In 2012, SUEZ ENVIRONNEMENT, a subsidiary in which GDF SUEZ has a 35.7% interest, generated revenues of EUR 15.1 billion.

Sembcorp Industries is a leading energy, water and marine group operating across six continents worldwide. With facilities of over 5,800 megawatts of gross power capacity and over seven million cubic metres of water per day in operation and under development, Sembcorp is a trusted provider of essential energy and water solutions to both industrial and municipal customers. It is also a world leader in marine and offshore engineering as well as an established brand name in urban development. The Group has total assets of more than S\$12.5 billion and employs over 9,000 employees. Listed on the main board of the Singapore Exchange, it is a component stock of the Straits Times Index, several MSCI and FTSE indices as well as the Dow Jones Sustainability Asia Pacific Index.
