THE LEADER IN RESOURCE RECOVERY

MEDIA RELEASE

27.11.13

FROST & SULLIVAN AWARDS SITA AUSTRALIA WASTE MANAGEMENT COMPANY OF 2013

SITA Australia (SITA) has been awarded Waste Management Company of the Year at the annual Frost and Sullivan Australia Excellence Awards, held 26 November 2013.

Now in its eighth year, The Frost & Sullivan Australia Excellence Awards recognises companies in a variety of regional and global markets for demonstrating outstanding achievement and superior performance in areas such as leadership, technological innovation, customer service and strategic development. The Frost & Sullivan Award for Company of the Year is presented to the company who has exhibited outstanding management and consistent growth.

SITA's Strategy and Development GM, Erin Tinker said, "We are honoured to accept this award which recognises our leadership in the industry. SITA has experienced strong growth, with revenues more than doubling within the last five years, driven by a combination of organic, asset based and acquisition growth."

The award specifically recognised SITA's contribution towards the circular economy. Ms Tinker said "Australia has one of the highest per capita waste generation rates in the world, making it critical for the industry to deliver sustainable solutions to manage waste responsibly and, increasingly, to view waste as a valuable resource which can be recovered and recycled. SITA has taken a leading role in developing these solutions and we are delighted to be recognised with this award".

SITA has played a key role in developing large scale Advanced Resource Recovery Technology (ARRT) facilities which extract resources and recyclables from household waste. SITA now owns and operates around half of the ARRT facilities in Australia. Through SITA-ResourceCo the company has developed the only Alternative Fuels facility operating in Australia, which transforms Commercial and Industrial (C&I) and Construction and Demolition (C&D) waste into a fuel product, which replaces gas and coal in cement kilns and other industrial processes.

Frost & Sullivan Analyst – Best Practices, Jonathan Leong, said "SITA has led the waste management industry in Australia with the ideology of a circular economy. The company has positioned itself as a leader in resource recovery as it hammered through multiple projects that aim at resource recovery and recycling technologies".

About SITA:

SITA is the leader in resource recovery, providing integrated waste management and recycling solutions. Our approach is to add value and enhance sustainability outcomes for our customers. We provide a seamless service offering tailored to our customer's unique needs and objectives. Our waste management services include collection, resource recovery, recycling and disposal.

SITA AUSTRALIA (SITA) is a SUEZ ENVIRONNEMENT and Sembcorp Industries joint venture, providing weekly services to over 56,000 commercial and industrial customers and more than 3.7 million residents across Australia. SITA's services include domestic, commercial & industrial waste collection; waste assessments; resource recovery and recycling options; processing of organic materials into compost; renewable energy facilities; hygiene services; waste treatment, and product destruction. More information on SITA's services can be obtained by calling 13 13 35 or visit www.sita.com.au

Natural resources are not infinite. Each day, **SUEZ ENVIRONNEMENT** (Paris: SEV, Brussels: SEVB) and its subsidiaries deal with the challenge of protecting resources by providing innovative solutions to industry and to millions of people. SUEZ ENVIRONNEMENT supplies drinking water to 91 million people, provides wastewater treatment services for 63 million people and collects the waste produced by 57 million people. SUEZ ENVIRONNEMENT has 79,550 employees and, with its presence on five continents, is a world leader exclusively dedicated to water and waste management services. In 2012, SUEZ ENVIRONNEMENT, a subsidiary in which GDF SUEZ has a 35.7% interest, generated revenues of EUR 15.1 billion.

Sembcorp Industries is a leading energy, water and marine group operating across six continents worldwide. With facilities of over 5,800 megawatts of gross power capacity and over seven million cubic metres of water per day in operation and under development, Sembcorp is a trusted provider of essential energy and water solutions to both industrial and municipal customers. It is also a world leader in marine and offshore engineering as well as an established brand name in urban development.

The Group has total assets of more than S\$12.5 billion and employs over 9,000 employees. Listed on the main board of the Singapore Exchange, it is a component stock of the Straits Times Index, several MSCI and FTSE indices as well as the Dow Jones Sustainability Asia Pacific Index.
